CLEVELAND ACCEPTS

The Nomination Tendered By His Party

AT THE CHICAGO CONVENTION

His Letter Characteristic of the Great North American Letter Writer.

NEW YORK, September 26.—The letter from Grover Cleveland, accepting the nomination for the presidency at the hands of the Democratic party, is made public tonight.

He says at the outset that continued reflection and observation has confirmed him in his adherence to the opinions which he has heretofore plainly and publicly declared. He soon enters upon a discussion of the tariff question and says, in part:

THE TARIFF.

"To furnish a means for the accomplishment of its national objects, the American people are willing, through federal taxation, to surrender a part of their earnings and income. Tariff legislation presents a familiar form of federal taxation and the results as surely is a tax upon the daily life of our people as a tribute paid directly into the hands of the tax gatherer. We feel the burden of these tariff taxes too palpably to be persuaded by any sophistry. They do not exist, or are paid by foreigners. Such taxes are only justifiable for the purpose of maintaining the government and furnishing a means for the accomplishment of its legitimate purposes."

Continuing, Mr. Cleveland says: "The dogma is now boldly presented that tariff taxation is justifiable for the express purpose and intent of promoting especial interests and enterprises. Such a proposition is so clearly contrary to the spirit of our constitution that its statement would rudely shock our people, if they had not already been industriously allured from the safe landmarks of principle. The plea that our infant industries should be fostered did a service until discredited by our stalwart growth. Then followed the exigencies of a terrible war and now, after a long period of peace, when our overburdened countrymen ask for relief and a restoration to a fuller enjoyment of their incomes and earnings, they are met by the claim that tariff taxation for the sake of protection is an American system, the continuance of which is necessary in order that high wages may be paid out to workingmen and a home market provided for farm products. These pretences should no longer deceive. The truth is, such a system is directly antagonized by every sentiment of justice and fairness of which Americans are pre-eminently proud."

DEMOCRATIC PRINCIPLES.

On the subject of Democratic principles, he says: "We wage no exterminating war against any American interest. We believe that advantages of freer raw material should be accorded our manufacturers and contemplate a careful distribution of the necessary tariff burdens rather than precipitating free trade. We anticipate with calmness the misrepresentation of our motives and purposes. We know the people cannot be frightened by the spectre of impossible free trade."

THE CURRENCY.

On the subject of currency he says: "The people are entitled to a sound and honest money, abundantly sufficient in volume to supply the business trade, but whatever may be its forms, national or state, gold, silver or paper, it should be regulated and guarded by governmental action or wise and careful laws that no one can be deluded as to the certainty and stability of its value. Every dollar put into the hands of the people should be of the same intrinsic value or purchasing power. With this condition absolutely guaranteed both gold and silver can be safely utilized upon equal terms in adjusting our currency."

PENSIONS.

He says of pensions: "No complaint should be made of the amount of public money paid to those actually disabled or made dependent by reason of army service, but the pension rolls should be a roll of honor."

EDUCATION.

On the education question he says: "The line between subjects properly within government control and those more fittingly left to parental regulations should carefully be kept in view. Enforced education is wisely deemed a proper preparation for citizenship and should not involve an impairment of wholesome parental authority."

IMMIGRATION.

He further asserts that a generous hospitality prompts us to welcome the worthy and industrious of all lands to homes and citizenship among us. This, however, does not justify the reception of immigrants who have no appreciation of our institutions, and whose presence among us is a menace to peace and good order.

IN CONCLUSION.

He closes the letter by saying: "If the action of the Democratic convention is indorsed by the suffrages of my countrymen, I will assume the duties of the great office, knowing full well its labors and perplexities, with an humble reliance upon the Divine Being, infinite in power to aid, and constant in the watchful care over this favored nation."

THE FRESNO DRIVING CLUB

Election of Officers Held Yesterday. Promising Prospects.

The reorganization of the Fresno driving club has been effected by the secretary, J. M. Reuck, with a strong membership. At a meeting held last evening at the office of the treasurer, F. P. Wickersham, the following officers were elected for the ensuing year:

Dr. Lewis Leach, president; Fulton G. Berry, vice president; F. P. Wickersham, treasurer; J. M. Reuck, secretary.

The membership will be increased through the winter to a sufficient number, if possible, to permit the giving of a spring meeting under the club's auspices in April. The members who have not paid their initiation fee can secure their badges of the treasurer or secretary at their club house during the fair upon the payment of the same.

The people of Fresno county should indorse this organization by giving it their liberal support. If the membership can be made 200 by February 1st it will be possible to conduct a splendid running meeting in the spring that will bring the most noted stables of runners to Fresno from all parts of the state.

Is there any connection between the simultaneous appearance in Fresno of C. P. Huntington and the train robbers?

AT THE FAIR.

Much Bustle Yesterday at the Opening.

EXHIBITS ARE A LITTLE SLOW

A Fine Program of Races Arranged for This Afternoon—The Fruit Display.

The district fair was informally opened yesterday, but nothing much was opened, however, excepting packing cases. Exhibitors were busy all day in getting things into shape in the pavilion, and they expect that by noon today they will have everything in readiness.

Grooms were in attendance in the stalls carrying and watering the fine trotting stock, while the jockeys were walking and exercising the horses to keep them in condition for the races, which will begin today and continue all the week.

There were plenty of horses and mares on exhibition for premiums yesterday and a few jacks and jennies, but not a solitary chanticleer crowed, not a sheep baaed, not a hog grunted, the exhibitors of these interesting animals not having arrived with their stock. They are expected today, and they will be a day behind the fair.

The lack of agricultural exhibits was generally commented upon yesterday, and it was reported that it was due to the fact that the county alliance believed that they had been snubbed by the directors in the matter of their application for space. It is to be hoped, however, that whatever differences may have existed between the representatives and the alliances may be adjusted today, and that for the credit of Fresno county there may be a full exhibit of all the products of this locality.

Henry Davenhill and others will send in some fancy poultry today to show that Fresno county as a poultry breeding locality is not surpassed by the most favored portions of the state.

It is expected that the missing sheep, cattle and swine will be on hand by this afternoon as object lessons of thrifty farming.

IN THE PAVILION.

The pavilion was a scene of bustle and bustles. The ladies seemed to be the busiest, and they did not stop to take breath so eager were they to arrange the booths over which they had charge.

J. H. Harding was in his shirt sleeves superintending matters and there were occasions when he would have welcomed the services of two or three assistants.

The octagonal pyramid in the center of the room on which the fruit destined for the Columbian exhibit will be displayed was the most conspicuous feature of the display. About half the tall and short jars containing mammoth peaches, pears, apricots, apples and plums were in place. The jars were topped with graceful pampas plumes and presented a very attractive appearance. This part of the exhibit is in charge of Mrs. A. B. Stuart, secretary of the World's Fair commission.

Riese Brothers display several varieties of leaf tobacco and have a man in attendance who does nothing except make cigars, and he makes them very well indeed.

Paul Borchardt displays some of his prettiest crockery and table wear. Paul is an artist and knows how to make things look pretty.

The silverware, jewelry and picture display by Thomas Yost & Son is up to its usual excellence, and elicits the admiration of the visitors.

The Fresno agricultural works displays a fine line of carriages and agricultural implements.

George C. Booding will have a fine nursery exhibit in place today.

Among the other persons and firms who were arranging their exhibits yesterday were H. C. Warner, jeweler; C. H. Riege, stationer; Gilbert the painter; A. Warnekros, guns and pistols; the Fresno Business College; E. R. Higgins, photographer; Mrs. Van Aken of Oleander, oil paintings and guimpure lace; and the Plymouth Rock shoe store. This establishment has not a very large exhibit, but it makes up in quality for whatever it lack in quantity. Some of the shoes and slippers are pretty enough to make the eyes of the ladies water.

The art department upstairs is in charge of Mrs. W. D. Crichton. The exhibit is as yet incomplete, all the articles entered for premiums not yet having been put in place. Mrs. Crichton has rare artistic taste and the exhibit will lose nothing of its attractiveness under her charge.

There will be five races today and they will be more than ordinarily interesting. The following is the program:

FIRST RACE.

Trotting, foals of 1891; Expositor stakes; Newman's Albert Basler, Mrs. Warlow's Athavis, Paulin & Co's Rebellion, Owen Bros' Unknown, H. P. Perkins' Iness.

SECOND RACE.

Trotting, foals of 1889, best three in five; Pollasky stakes: Paulin & Co's Panjabi, Owen Bros' Mons. Admont.

THIRD RACE.

2.40 class, best three in five; W. J. Dickey's El Pastor, Jacob Hayes' Pilot Wilkes, Andy Farley's Alpine Friend, E. Jamieson's Fligo, J. N. Anderson's Harry Gear, J. W. Martin's Electro, Charles English's Richmond Chief, H. R. Robinson's Lyda C., M. F. Tarpey's Aglai.

FOURTH RACE.

Trotting, 2.40 class—R. O. Newman's Colcolation, Weisenbaum & Wilson's Hanford Medium, H. H. Helman's Daughter, J. W. Martin's Polly.

FIFTH RACE.

Running, ⅝ heats—E. A. Neame's Lady Queen, E. A. Neame's Myrtle, Owens Bros.' Royal Flush, Owens Bros.' Gold Dust, John Leach's Sam Mount, W. J. Howard's Queen Bee.

M. F. Tarpey, a prominent leader in the Hill faction of the Democratic party, is in the city from Alameda.

ARE THEY IN FRESNO?

The Train Robbers Seen Near This City.

OFFICERS GATHERING HERE

Burke and the Indian Trailers Seen in Temperance Colony by Vineyardists.

A startling rumor was circulated yesterday that Sontag and Evans were either in or near Fresno. The arrival in this city within the past few days of several of the officers who have been foremost in the search for the robbers has inclined the people to more credence in this rumor than they might otherwise have done.

It is reported that the robbers were seen Saturday evening about six miles east of this city passing through the vineyards and that they slept part of the night in Clovis Cole's barn, on the Mountain railroad. Where this rumor originated and on what it was based could not be learned.

The strangest reason for suspecting that the robbers are near Fresno to some people is the presence of so many officers who, only a few days ago, were in hot pursuit in the mountains.

H. L. Musick saw a posse of eleven men pass through the eastern portion of Central colony about seven miles from this city, Sunday evening. When Musick saw the officers they were in the act of dividing their force into two posses.

G. W. Beall of the same colony, also saw this posse and spoke to some of the officers constituting it. They had the Yuma Indians with them and all were heavily armed. They did not seem to have any intention of going far, but were very uncommunicative regarding their destination.

A peculiar circumstance which people are inclined to connect with the rumored appearance of the train robbers, is the stealing of S. B. Tombs' horse and buggy Sunday night from his stable on the corner of Tulare and P streets. The buggy had two seats in it, but one of these the thieves took out and left it, probably to make room to haul a load somewhere.

Two women living near Tombs' say that on Saturday evening they saw three men to them unknown take the horse from the stable and look at it carefully, as if they were making an inspection preliminary to buying it. They then returned the horse to the stable and drove off. They were in a light two-horse spring wagon painted green. One of the horses was a bay and the other a gray.

Yesterday William Reed of Fine Gold came to Fresno and reported finding Tombs' buggy at Belleview, about eleven miles north of Pollasky, near the San Joaquin. The horse had probably been detached from the buggy and turned homeward. There are not a few who believe that Sontag & Evans borrowed Tombs' horse and buggy for some purpose.

It will be remembered that Thacker and three officers arrived from Visalia Saturday at noon and set out three hours later heavily armed in two buggies. Early Sunday morning Sheriff Hensley and Deputy McCardle arrived. In the afternoon the sheriff left town again, but returned yesterday at noon. Detective Will Smith is also in the city, having arrived here Sunday, and the posse seen by the vineyardists in Temperance colony on the same day must have been that of Burke, for the Indians were with them. It is not to be wondered at, therefore, that the people feel uneasy and are inclined to put considerable faith in the "odious approximation" of Sontag and Evans.

It is no secret that the officials at the jail have for a long time expected that an attempt to rescue George Sontag would be made by the robbers. To prevent this the jail has been heavily guarded. Two or more squads of men were located at points giving a clear view of the jail, while they themselves were unobserved.

It is hardly likely there is any truth in the rumor that Sontag and Evans came to Fresno to meet Col. Huntington. They had ample time to interview that gentleman, but did not embrace the opportunity.

A SCURVY TRICK.

The Flag at Democratic Headquarters Torn Down.

The Democrats in charge of the headquarters on J street are trying to make political capital out of the fact that some one tore down the flag in front of their headquarters last Saturday night.

Wick B. Parson, the man in charge of the free trade literature at the headquarters, had himself interviewed by a hysterical Expositor reporter on the matter. He said he didn't think any good Republican did the deed, but implied it was a bad one.

It did not occur to the gentleman with the free trade hat that a man crazed by some of the free trade slush he distributed might have torn down the flag. Neither does it seem possible to him that a gentleman driven to a high degree of hilarity by Bourbon whisky might have done the deed.

It is hardly saying too much when it is stated that the men who fought for the flag have so much respect for it as those who—didn't.

THE SUPERVISORS.

They Make the Tax Levy—Other Business Transacted.

The supervisors yesterday fixed the state and county tax levy for the ensuing year. The proportion of taxation for various purposes is as follows:

General fund, 33.6 cents on the $100; school fund, 16; indigent fund, .03; bridge bonds, .01; salary fund, .01; road fund, 25; state fund, 43 4; total, $1.23.

A. L. Rhodes, a San Francisco attorney, was allowed $100 by the board for legal services. Rhodes has been retained by the board to advise them concerning the voting of bonds for the court house additions.

In case the people at the approaching election decide to pay for the additions as they are built, Rhodes will get no more than the $100 he has received. If the people vote for bonds Rhodes is to get $400 more for his services in having them issued in a legal manner.

A FRIENDLY SUGGESTION.

Among a number of interesting things said by Collis P. Huntington, president of the Southern Pacific company, in an interview printed in this morning's REPUBLICAN, is a statement that General Manager Towne is at present engaged in the work of revising the freight schedule, which may result in a reduction of rates affecting Fresno and points similarly situated. Speaking for himself and from his knowledge of that branch of the business, Mr. Huntington expresses the opinion that these reductions will be slight—very slight, perhaps.

THE REPUBLICAN hopes that Mr. Huntington is mistaken. It hopes that when Mr. Towne has completed the job on which he is now engaged that he will have decided to make a reduction in freight rates affecting Fresno that will be the reverse of slight. THE REPUBLICAN does not presume to know more about the business of the railroad company than does Mr. Huntington, but it has the temerity, nevertheless, to take advantage of Mr. Huntington's absence in the southern part of the state to make some not altogether irrelevant suggestions to Manager Towne.

In the first place it desires to say to the affable manager that Fresno needs a reduction in freight rates—needs it in her business and needs it badly. Some lines of her present business are handicapped by the existing rates, and their development retarded. The growth of some agricultural products is rendered very hazardous if not wholly unprofitable to the farmer by the cost of getting them to market, and manufacturing and wholesaling are undeveloped business resources because of high local rates and the lack of terminal facilities. These are disadvantages which cannot be contended against in many branches of industry and lines of business upon which the profits are limited by active competition.

The growth of the raisin and fruit industry in California has reached a point in the volume of production and consequent diminution of profits, that does not with safety to the producers admit of the present rates of transportation to eastern markets. The result of this, if continued, must necessarily be a marked decrease in the growth of these important industries which will be especially detrimental to this city and county, where so much depends upon the continued success and advancement of raisin and fruit culture.

This much by way of a brief resume of conditions here as affected by the freight tariff. THE REPUBLICAN desires to ask Mr. Towne, when he has paused for a moment, as he undoubtedly will, to consider the matter from this standpoint, if he does think it would be a broad-gauge business policy to look a little beyond the profits of carrying the present crop to market and of handling the present manufactured product of Fresno, and to so encourage the growth of agriculture and the development of other industries by a needed reduction of rates that the resulting increase in the volume of the traffic may be given the chance to swell the profits far beyond those now realized from high rates and a limited amount of business?

What say you, Mr. Towne? You have possibly heard about the mistake of killing the goose which laid the golden egg. May it not be an almost equally fatal error to squeeze the unfortunate goose for immediate results until her system is all run down and her future usefulness impaired?

Kindly take these frank suggestions under serious consideration, and, during Mr. Huntington's perhaps providential absence somewhere down south in quest of short roads which will not pay interest on their cost for ten years, revise that moldy chestnut in regard to what the traffic will bear, and give us about what a young and undeveloped traffic may safely bear without endangering its bright future. Give the traffic a chance! If you will, it will grow up and help you out in your old age. A bow-legged, dwarf tariff is an unpleasant thing to be the parent of, anyway.

THE SNAP PRIMARIES.

The Expositor last evening said that "in a full and fair expression of their wishes a majority of the Democrats of this county have indorsed the nominees of the Democratic ticket," also that "the Democratic candidates did not obtain their nominations by trades or combinations in a convention."

These are only half truths, and half truths are often more misleading than falsehoods. The Democratic candidates may not have secured their nominations by trades or combinations, but it is doubtful that even the Holdfasts themselves would have the effrontery to deny that the snap primaries was a scheme got up in their favor to prevent competition from fellow Democrats aspiring to their offices. Is the Expositor's memory so short that it should forget the indignation caused by the Democratic county committee's inexcusable action in setting the primaries for so early a day, making it impossible for anti-ring Democrats who aspired to office to make an effective canvass?

In spite of this scurvy trick the anti-Holdfast Democrats succeeded in defeating two of the court house family, and this, together with the slender majorities of the other Holdfasts, shows clearly how strong the feeling of the anti-ring Democrats was against the originators of the trick. Had the anti-Holdfast candidates had the time that should have been allowed them to canvass the country there is no doubt that the Democratic ticket would have the names of still fewer Holdfasts on it than is now the case.

The anti-ring Democrats have a better memory than the Expositor, and what they failed to accomplish at the primaries they will endeavor to bring about at the election. The ring must go.

THE wild rumors which have been afloat for some time to the effect that the Southern Pacific might at some time absorb the Mountain road are assuming the shape of a tangible possibility. And that is not a sensational statement of the case, either, as will be seen by reference to Mr. Huntington's interview.

THE Examiner felicitates itself on being the discoverer of the fact that the accomplished Messrs. Evans and Sontag are not train robbers but robbers of the express company. It is apparent from the tone of Mr. Evans' letters printed in this paper, that he has not yet made that discovery, but he might have done so some time ago had he been a regular reader of THE REPUBLICAN since he made that little break.

PROCLAMATION.

STATE OF CALIFORNIA,
EXECUTIVE DEPARTMENT,
SACRAMENTO, August 6, 1892.

WHEREAS, The Legislature of the State of California, at its twenty-ninth session, beginning on the fifth day of January, A. D. 1891, two-thirds of all the members elected to each of the two houses of said Legislature voting in favor thereof, proposed the following described amendments to the Constitution of the State of California, to-wit:

Amendment No. One.

Senate Constitution Amendment No. 10.

ARTICLE IV.

Section 2. The sessions of the Legislature shall commence at 12 o'clock m. on the first Monday after the first day of January next succeeding the election of its members, and shall be biennial unless the Governor shall in the interim convene the Legislature by proclamation. No pay shall be allowed to members for a longer period than one hundred days, and no bill shall be introduced in either house after the expiration of sixty days from the commencement of each session, without the consent of two-thirds of the members thereof.

Amendment Number Two.

Assembly Constitutional Amendment No. 7.

ARTICLE XI.

Section 18. No county, city, town, township, Board of Education, or school district shall incur any indebtedness or liability, in any manner, or for any purpose, exceeding in any year the income and revenue provided for it for such year, without the assent of two thirds of the qualified electors thereof voting at an election to be held for that purpose, nor unless, before or at the time of incurring such indebtedness, provision shall be made for the collection of an annual tax sufficient to pay the interest on such indebtedness as it falls due, and also provision to constitute a sinking fund for the payment of the principal thereof on or before maturity, which shall not exceed forty years from the time of contracting the same. Any indebtedness or liability incurred contrary to this provision shall be void.

Amendment Number Three.

Senate Constitutional Amendment No. 11.

ARTICLE V.

Section 15. A Lieutenant-Governor shall be elected at the same time and place and in the same manner as the Governor, and his term of office and his qualifications of eligibility shall also be the same. He shall be President of the Senate, but shall have only a casting vote therein. He shall also, when the Senate is not in session, visit all the State institutions, prisons, reformatory schools, asylums, and other institutions supported in whole or in part by the State, and make careful examinations of the manner in which the appropriations for the support of such institutions and for permanent improvements, have been expended and report the result of his examinations to the Governor, to the Legislature, and to any other officer, or board of officers, that the Legislature may direct; provided, that in case the office of Lieutenant-Governor becoming vacant, or in the case of the functions of Governor devolving upon him, the President pro tem of the Senate, or his successor, shall perform the duties and receive the emoluments of said Lieutenant-Governor, during the term of such vacancy, or the time he is performing such functions of Governor. The Legislature may by law prescribe the time and manner that such examinations shall be made. If, during the vacancy of the office of Governor, the Lieutenant-Governor shall be impeached, displaced, resign, die, or become incapable of performing the duties of his office, or be absent from the State, the President pro tem of the Senate shall act as Governor until the vacancy be filled or disability shall cease. The Lieutenant-Governor shall be disqualified from holding any other office except as specially provided in this Constitution, during the term for which he shall have been elected.

Section 19. Governor, Lieutenant-Governor, Secretary of State, Controller, Treasurer, Attorney-General, Surveyor-General, shall, at stated times during their continuance in office, receive for their services a compensation, which shall not be increased nor diminished during the term, which compensation is hereby fixed for the following officers for the two terms next ensuing the adoption of this Constitution, as follows: Governor, six thousand ($6000) dollars per annum; the Attorney-General, three thousand ($3000) dollars per annum; the Secretary of State, Controller, Treasurer, three thousand ($3000) dollars each per annum; Surveyor-General, three thousand ($3000) dollars per annum, and for the following officer for the fractional term and for the two terms next ensuing the fourth day of November A. D. eighteen hundred and ninety-two, as follows: Lieutenant-Governor, four thousand ($4000) dollars per annum, and traveling expenses when he may be employed in visiting and examining State institutions. Such compensation to be in full for all services by them, respectively, rendered, in any official capacity or employment whatsoever, during their respective terms of office; provided, however, that the Legislature, after the expiration of their terms hereinbefore mentioned, may by law diminish the compensation of any or all such officers, but in no case shall have the power to increase the same above the sum hereby fixed by this Constitution. The Legislature may, in its discretion abolish the office of Surveyor-General, and none of the officers hereinbefore named shall receive for their own use any fees or perquisites for the performance of any official duty.

Amendment Number Four.

Assembly Constitutional Amendment No. 5.

ARTICLE IV.

Section 34. No bill making an appropriation for money, except the general appropriation bill, and the deficiency bill for the appropriation of money exclusively devoted to the support of the general Government and State institutions, shall contain more than one appropriation, and that for a single and certain purpose, to be therein expressed. When the deficiency bill is presented to the Governor, he may object to one or more items, while approving other portions of the bill. No officer of the State shall have power to incur any deficiency except in case of actual necessity, and then only upon the written authority, first obtained, of the Governor, Secretary of State, and Attorney-General. Any deficiency incurred in violation of this provision shall be void, and the Legislature shall not have the power to appropriate money to pay the same.

Amendment Number Five.

Senate Constitutional Amendment No. 14.

ARTICLE XI.

Section 8. Any city containing a population of more than three thousand five hundred inhabitants, may frame a charter for its own government, consistent with and subject to the Constitution and laws of this State, by causing a board of fifteen freeholders, who shall have been for at least five years qualified electors thereof, to be elected by the qualified voters of said city at any general or special election, whose duty it shall be, within ninety days after such election, to prepare and propose a charter for such city, which shall be signed, in duplicate, by the members of such board, or a majority of them, and returned, one copy to the Mayor thereof, or other chief executive officer of such city, and the other to the Recorder of the county. Such proposed charter shall then be published in two daily newspapers of general circulation in such city for at least twenty days, and the first publication shall be made within twenty days after the completion of the charter; provided, that in cities containing a population of not more than ten thousand inhabitants such proposed charter shall be published in one such daily newspaper; and within not less than thirty days after such publication it shall be submitted to the qualified electors of said city at a general or special election, and if a majority of such qualified electors voting thereat shall ratify the same, it shall thereafter be submitted to the Legislature for its approval or rejection as a whole, without power of alteration or amendment. Such approval may be made by concurrent resolution, and if approved by a majority vote of the members elected to each house, it shall become the charter of such city, or if such city be consolidated with a county, then of such city and county, and shall become the organic law thereof, and supersede any existing charter and all amendments thereof, and all laws inconsistent with such charter. A copy of such charter, certified by the Mayor, or chief executive officer, and authenticated by the seal of such city, setting forth the submission of such charter to the electors, and its ratification by them, shall, after the approval of such charter by the Legislature, be made, in duplicate, and deposited, one in the office of the Secretary of State, and the other, after being recorded in said Recorder's office, shall be deposited in the archives of the city, and thereafter all courts shall take judicial notice of said charter. The charter so ratified, may be amended at intervals of not less than two years by proposals therefor, submitted by the legislative authority of the city to the qualified electors thereof, at a general or special election, held at least forty days after the publication of such proposals for twenty days in a daily newspaper of general circulation in such city, and ratified by at least three fifths of the qualified electors voting thereat, and approved by the Legislature, as herein provided for the approval of the charter. In submitting any such charter, or amendments thereto, any alternative article or proposition may be presented for the choice of the voters, and may be voted on separately without prejudice to others.

NOW, THEREFORE, Pursuant to the provisions of the Constitution and an Act of the Legislature entitled, "An Act to provide for the submission of certain proposed amendments to the Constitution of the State of California to the qualified electors for their approval," approved March 7, A.D. 1883, viz: "Section 1. Whenever the Legislature shall propose any amendment or amendments to the Constitution of this State, which amendment or amendments shall have been passed in the manner and form required by section one of article eighteen of the Constitution, and no other mode is provided by law for the submission of such amendment or amendments to the people for their approval, it shall be the duty of the Governor to advertise such proposed amendment or amendments in at least four newspapers of general circulation in this State, for three months next preceding the next general election. One of said newspapers must be published at the city of Sacramento, and two at the city of San Francisco; and in issuing his proclamation for an election at which any amendment or amendments to the Constitution are to be voted upon, he shall include such amendment or amendments therein, and he shall designate them by numbers, in the order in which they have been proposed." The said amendments are submitted, to be separately voted upon by ballot by the qualified electors of the State, on

Tuesday, November the Eighth, A.D. 1892

Each ballot used at such election must contain, printed thereon, the words:

Senate Constitutional Amendment No. 10.......	YES / NO
Assembly Constitutional Amendment No. 7.......	YES / NO

Frank Brown and Charles di Corba were arrested yesterday for battery on the complaint of Fred Raun. They were put under bond in the sum of $50 each, which they furnished.

Another complaint charging petty larceny was filed in Recorder Laning's court yesterday against George Morgan. Louis Loustalot is the complainant and the article stolen is a telescope.

Recorder Laning yesterday sentenced Rockey, an Indian, to two days in jail for drunkenness. Rockey, the independent candidate for constable, wants it understood he is not Rockey, the Indian.

Charles McCarthy of the Club saloon was again arrested yesterday on the charge of selling liquor without a license, the violation of the ordinance having occurred Sunday. Another complaint on the same charge was filed last evening. Dan Maloney and H. G. Spaulding gave bond for McCarthy's appearance.

There will be baptism at the Baptist church tonight. Crowds attended the Evangelistic services on Sabbath. Chairs were brought from other churches and every place filled with earnest hearers. Gallahorn and Ledford are securing public favor to an unusual degree. Services every night. Mr. Ledford will sing "Some Mother's Child" tonight.

Prohibition Speaking.

H. Clay Needham of Los Angeles is billed for the park this evening, also the Fresno colony club for campaign songs. Seats are being arranged for the audience, and everybody is requested to turn out. Needham speaks at Temperance colony Wednesday evening.

COL. HUNTINGTON

Will Buy the Pollasky Railroad.

NOT A PAYING SCHEME

Not Much Profit in Any of Them.

He Tells Why Discriminations Are Made—The Monterey Project Not Very Strongly Favored.

Colonel Collis P. Huntington, president of the Southern Pacific company and a heavy patron of the Pacific Improvement company, arrived in Fresno yesterday in two cars, one a Pullman sleeper and the other his private drawing room and dining room car.

He was accompanied by his nephew, H. E. Huntington, Irving M. Scott, the builder of the Charleston, San Francisco and other war cruisers, and Superintendent Frazier.

Major Pollasky, who is casually acquainted with Colonel Huntington, having met him in the east about three years ago, took the party driving through the large vineyards east of this city and along the line of the San Joaquin Valley railroad as far as Las Palmas station on the beautiful grounds of Ben Woodworth. J. W. Ferguson, proprietor of the Expositor, Thomas E. Hughes and John D. Gray accompanied the party and showed Colonel Huntington some fine vineyard property that he might purchase at a reasonable figure in case he should desire to retire from politics and join the Farmer's Alliance. In the afternoon the party visited the fair grounds and the pavilion and looked at some of the fine trotting stock on exhibition there.

Colonel Huntington was visited by a REPUBLICAN reporter in his car in the afternoon and proved to be a very affable gentleman. He is a charming conversationalist when he wants to say anything, and he said a good many things yesterday.

IMPRESSIONS ABOUT FRESNO.

When asked as to his impressions of Fresno, the Colonel replied:

"Fresno is getting quite a good reputation abroad. I have often favorably mentioned it myself in the east."

"What do you think of the Pollasky road?" asked the reporter.

THE COLONEL AS A NURSE.

"I have been over the Pollasky road. It's a pretty little road but it will have to be nursed; it will have to be nursed. It's a road that can't take care of itself. Mr. Pollasky was a little disappointed, and he wanted me to come and look at it, and I have helped him some; yes, I have helped him some. Of course it's not a very large road, but it doesn't take as much to carry it through as a larger one. It will not pay the interest on its cost for the next ten years."

"Do you think it would be adviseable to extend the road into the timber belt?" was asked.

"It would not pay. There is a much more economical way of getting the timber out than by extending the road, and that is by building flumes and fluming it down to Pollasky. I was inquiring of Mr. Birmingham about the matter and he thinks the road should not be built beyond where it is. It will not minimize the cost any more and money can be saved by having flumes to bring the lumber to the end of the road, but if you have to go up for the lumber it would be very expensive, for every time you send a car up you have to haul twelve tons up the mountains to bring down the same quantity of lumber."

DIPS, SPURS AND ANGLES.

"Would you mind saying something about railroad improvements being made by your company in this state?"

"We are commencing to fix up the coast line from Margarita to Ellwood, and we are building some west of Bakersfield. I don't know whether we will take it to the coast or not, but it is not of much use to take the road to water. If you take a road to Harford or Monterey you have not got it where you want to go; you are on the way to other places. The proper route is to follow the water courses all the way to San Francisco, and in that way you minimize the cost of transportation."

THE MONTEREY ROAD.

"What do you think of the feasibility of the proposed Fresno & Monterey railway?" was the next question.

"There is nothing that I can see in the in the Fresno & Monterey road," replied the affable Colonel. "Where did you say the road was going to? Oh to Monterey? Yes, there is no harbor at Monterey; it's only a roadstead. When you get to Monterey there is no fixed commerce there. There is nothing that I can see that will pay any road in running across the watersheds from the San Joaquin to the sea; the natural way is along the rivers to San Francisco. If the road was built and given to me I would not take it to operate it.

"We were speaking once of building a short line along the Gulf of Mexico by way of Aransas Pass, but we found that when we got there we would have nothing to take back, but when we got to New Orleans there was always a load to take back. In San Francisco there is a large fixed commerce—something to take out as well as to take in. Nobody would build a road from here to Monterey unless they had some interest to serve."

THE COLONEL IS HAPPY.

"Is there anything in the statement," asked the reporter, "that the Pollasky road was built by and for the Southern Pacific?"

"I am happy to say that the Southern Pacific did not inaugurate the Pollasky road. I had some little talk with Mr. Pollasky—a little, and I told him individually I would help him a little, because the road would help the Southern Pacific some, and it would help Fresno some and Mr. Pollasky some. No one can build these short roads through a county that is undeveloped and succeed unless they lose some money and in time they may reach a business that will pay. On the way to New Orleans, when we were building the road, we got within twenty-five miles from business, but when we got to the Gulf we reached a large business.

GETTING TO BUSINESS.

"At Mr. Pollasky's request I came up here to look over the road, and he told me if we would take it in, it would help him out, but I would rather he would run it for the next five years, because it is going to be run at a loss.

"I have bought nearly all the short roads in California. The Donahue road is for sale, but we don't want it, and the North Pacific Coast road wants to sell, and we feel the same way about that. Take these little roads like that running from Stockton to Copperopolis. They issued a million dollars in bonds at 3 per cent on that road and they said they put in a half million in money besides. They ran it at a loss for seven years, and they never lost as little in any one year as $7000, to say nothing of the cost of construction. I bought that road afterward for half a million dollars.

"The road from Salinas to Monterey cost its builders $371,000, and they ran it for five, six or seven years, and their books showed their highest loss in one year to be $37,300, and the lowest loss $5300. I bought that road, but I didn't give them much for it. Of course we built the El Monte hotel and it pays 4 or 5 per cent on the cost to us.

"The Jones road at Los Angeles cost him $716,000, and I gave him only $225,000 for it. We can work these roads much more cheaply than the owners did—just for operating expenses. We would take off all expense except train expenses and the pay of the train men.

"I take it that Fresno would rather we should have the Pollasky road than any one else, not that we are cleverer fellows than Pollasky, but because we could run it at less expense."

COMPETING LINES.

"Do you believe there is anything in this talk about a competing line coming into this state?" was asked.

"I don't think anything about it. If I had to build a competing road, I would lie awake at night thinking about it. We have a road between San Francisco and Salt Lake, and we could do five times the business that we are getting from it. Material is less than one-half the cost of what it was when we built our road, and we have to meet competition. If there is another road built between those points costing $50,000,000, the price would have to be added to pay the interest on the new investment, and it would come to grief.

"I have no idea that they will build a competing road. We can do twenty-five times as much business on our road as we have got now. We have several millions of capital stock paid in in the Southern Pacific and the bonds are held all over the commercial world and we have to pay interest on them. I don't believe we could operate our roads any cheaper than we do. We could cut down salaries and matters of that kind, but that would not amount to anything. We want to increase our tonnage, however, and we are having our freight tariff readjusted and to see if we cannot reduce the rates through this valley, but if we do we will have to put it on some one else. But the reduction will be very slight.

MANUFACTORIES WANTED.

"Business is suffering in California because we have not enough manufactories. We send out of this state 35,000,000 pounds of raw wool every year, and 50 per cent of it could be and should be manufactured here. On every pound of raw, dirty wool shipped out of this state they have to pay the freight on two pounds, but if that wool was made into a nice fabric we would have to pay freight on only one pound.

"The high price of coal on this coast is not a valid objection. Steam engines have been so much improved that it does not take half as much coal to produce each horse power that was formerly required. Is not that true, Mr. Scott?" asked the Colonel, turning to Irving M. Scott, who sat beside him.

"Yes," replied Mr. Scott. "It used to take sixty pounds of water to make a horse power and now it takes only sixteen or eighteen pounds."

"If that be so," asked the reporter, "why is it that nearly all the woolen mills in California have been failures?"

THE CHINESE MAY COME.

"The reason woolen mills failed," said Colonel Huntington, "is because they drove away the only labor that could compete with the labor of other parts of the world. The Marysville woolen mills, I believe, always paid a profit. A few years ago I saw whole ship loads of grain sacks shipped from Calcutta and then sent to Scotland, where a man cannot live half as well in Scotland as he can here on the same money."

At this stage of the interview a reporter for the Expositor entered the car and handed his card to the Colonel.

"Ah!" exclaimed the Colonel, "you represent the Expositor. Where is that paper published? In Fresno? Well! Well!"

And the Colonel spoke as if he really did not know that the Expositor was an anti-railroad paper published in Fresno.

CASES OF DISCRIMINATION.

Colonel Huntington told about a shipment of 21,000 tons of rails from New York. It was a dull season of the year for railroad freighting and the Colonel wanted the railroad companies to take the rails at a price very much lower than the schedule freight rates. The companies refused the offer and the Colonel thereupon declared that he would place them on board a vessel and send them around the Horn. He requested the railway officials to figure up the train expenses and after doing so they took the rails at the rate offered. They did so because they were obliged to do so or not get the hauling at all. "Of course if they carried everything else at that price," added the Colonel "it would have meant bankruptcy."

"Wear and tear don't amount to much on the road; it is this everlasting interest, the high salaries of superintendents and taxes which come in whether the road is doing any business or not.

WHAT THE TRAFFIC BORE.

"We got $25 per ton for a load of a certain grade of ore from Nevada to San Francisco and we got only $3 per ton for a load of another grade of ore from another man. The $3 a ton man got half a dollar out of it, while the $25 man got $100 out of it."

The Colonel believed that California was a glorious country, and that all the people of the northwest would immigrate to this state if they knew what California was. The drawback is that they have an impression "that land is too high priced here and that there are a good many things wrong about the state. I am surprised that the northwest people remain where they are with their blizzards and their terrible winters and God knows what else. I can't understand why they don't come here."

CALIFORNIA FRUIT.

The Colonel expressed his conviction that there was a good market in Western Europe for California fruit. It could be laid down in Liverpool from San Francisco in eighteen days. He had not given the subject of fresh fruit much attention because he had always fought shy of perishable products.

Mr. Pollasky and several other stockholders of the San Joaquin Valley railroad, accompanied Colonel Huntington to San Francisco last night to arrange the terms for the transfer of the road to the Southern Pacific.

THE SCHOOL CHILDREN

Will Have an Opportunity to Visit the Fair.

At a meeting of the board of education yesterday afternoon it was decided to close the schools on Friday to allow the children to attend the fair. For the last three years children's day has been Tuesday. At the request of Professor Heaton the Fair association changed it to Friday. Friday is the better day as much more can be seen and it does not break into the middle of the week.

Children of the school will be admitted free of charge. There will be a balloon ascension on Friday.

W. D. GRADY EXPLAINS

THE LETTER FROM BUCKLEY TO HIMSELF.

He Says it Referred to a Legal Transaction and Not to Politics.

EDITOR REPUBLICAN.—While I had hoped that I might pass through this campaign without taking any active part, I am forced by circumstances to ask space in your paper for a brief statement in relation to certain charges made against me by one Firman Church in his speech at Madera on the evening of September 24th. I observed in the columns of your paper yesterday that Mr. Church, who is a candidate for district attorney, has in his possession and is hawking around the country for political purposes, a certain letter belonging to me and signed "C. A. Buckley," and which, with other property, was stolen from my possession. In view of the fact that said letter is used by him for the purpose of inducing people to believe that a money transaction took place between Mr. Buckley and myself in relation to matters pertaining to politics, and that Mr. Buckley sent to me $80 to be given to Senator Goucher for political purposes, I desire through the columns of your paper, in order that the same may reach those who have read his statements, to present the facts in relation to this letter.

In April, 1886, C. A. Buckley assigned for collection a claim against Frank Frost & Co., of the Van Amberg circus, to Samuel Newman, a collecting agent of San Francisco. Newman brought suit in the superior court in the city and county of San Francisco, and obtained judgment and sent execution to me to levy upon the circus, which was then in Fresno. This case is No. 17,684, superior court, San Francisco, and is registered on the sheriff's docket, Fresno, on page 72. The matter was finally settled by Mr. Buckley accepting $460 in money and certain indorsed notes for certain amounts, he (Buckley) agreeing to pay off other claims in San Francisco. Mr. Goucher represented one of the San Francisco claimants; and when Mr. Buckley settled with them he was requested to hold out $80 as the fee of Senator Goucher, which he did, and sent to me to pay Goucher.

These are the facts in relation to this stolen letter, as they appear from the records to which I have referred, and from the letter itself, which reads as follows:

"SAN FRANCISCO, May 28, 1886.

W. D. Grady, Esq.—Dear Friend: Your favor of the 25th, containing checks and notes, came duly to hand. I am very grateful for your kind treatment and consider myself under a lasting obligation. I sent $80 to you by express to hand to Goucher, his client having left it in my care. Accept my congratulations on your nomination. Should the legislature be Democratic and our nominees here be elected, keep your eye on the speakership. Hoping this will find you enjoying good health, believe me to be, as ever, Your friend,

"C. A. BUCKLEY."

C.

I desire to say further that while Mr. Church may indulge in the belief that this letter tends to prove to the public corruption on the part of Senator Goucher and myself, I have the satisfaction of knowing that it only proves theft upon the part of the person who took it from my office; and in view of the fact that we find it in Mr. Church's possession, unless he explains the source from which he obtained it, I shall feel justified and will pronounce him the thief who entered my office and filched therefrom my private papers.

Respectfully, W. D. GRADY.

A PLEASURE LAKE.

One That Will Swarm With Sweethearts and Trout.

COLONEL SMUTZ IN THE SWIM

An Improvement in Band Saws—Creation of an Artificial Lake. Lots of Fish.

BONANZA MILLS, September 25.—The expedition has at last arrived at Davis' Bonanza mill and found the air very much abbreviated and in order to replace the amount lost upon heavy grades we immediately commenced drawing a fresh supply, so much so, that the engineer stopped the engine, thinking it had sprung a leak. Several of the workmen ceased work and came up to shake hands with the writer, but I think it was a subterfuge in order to save their supply of wind. It takes lots of the mountain article to supply a valley citizen.

The Bonanza mill was formerly the old Humphrey mill and was purchased and is now owned by C. D. Davis, the projector of the flume. The capacity of this mill is 40,000 feet per day, with a possible 10,000 added. It is located seventeen miles from Toll House and two and a half miles north of the old site of the Humphrey mill. It is upon the banks of Stephenson creek and on the line of the flume. Mr. Davis owns 660 acres of fine timber land consisting of sugar and yellow pine and cedar.

The cutting of lumber is at present confined to eighty acres and will yield about three and a half million feet of lumber, this being some forty-three thousand and a fraction per acre. Mr. Davis has added to his mill a box and lath factory in which he will saw waste products into laths, trays, boxes and other small lumber. The waste lumber has heretofore been burned but in this factory some $40 per day will be saved from said waste. It will require about seven men to operate this adjunct.

Professor W. W. Pool is manager and bookkeeper for this large plant. J. E. Paddock has the contract of logging and has about fourteen men at work. John McFarlane has the contract of throwing the timber and sawing into logs and is assisted by eight brawny workmen. In their sawmill proper it requires seventeen men. Moses Mook, a veteran at the saw, is head sawyer. Tom Williams an expert, operates the log carriage and is the only man who gets to ride all day.

This mill commenced the season's cut July 18th, and on September 18th the cut amounted to 1,652,137 feet of lumber.

Moses Mook, head sawyer at the Bonanza mill, has invented a gang of band saws and will place them in that mill during the winter. There are two band saws so adjusted as to saw two boards at once and of any thickness. It is claimed that these saws will double the cut without much increase in help. It will require more power than at present.

I learn here that the fish commissioner who dumped the fish into Stephenson creek was not here according to prearranged plans, and that he was several days late. The Collins boys and one of the Sample boys waited at Bennett's mill a week for him and moved away the day before he arrived.

At Bennett's mill a dam has been constructed to keep the trout from coming down, but no screen has been placed thereon to keep them back. Not even a "danger" signal red flag, or "keep off the sawdust" sign has been placed there. This is to be regretted, especially by fishermen, in view of the big reservoir of water that will be there as soon as the dam is completed; then it will be a great place for fish.

Thursday morning the dam and lake site was viewed, and a great pleasure resort and camping place it will be upon the banks. The forest and underbrush will all be cut down and moved off of 2000 acres above the dam. The said number of acres will be the size of the lake. It will be three miles in length and twelve miles in perimeter—the latter due to the lake running into many small meadows. Here will be the future pleasure resort of Fresno county, provided the company will allow boating upon the lake. Upon its crystal waters in midsummer's moonlight nights lovers will row and row. Moonless nights will sweethearts ride thereon sparking like fireflies, thus lighting up the dense forest. Out upon its balmy surface John will, kneeling upon the wet hurricane deck of a row boat, spoil his $3 trousers and ask your Annie to be "hisen" forever.

There are many pine cones surrounding the lake; do not waste them, but construct an island in midlake and we will have our own Coney island.

In a few years one can go up to the lake, catch fine trout and flume a feed of them down to the friends at home. Yum, Yum!

The dam at present will be but thirty-five feet in height, but is so constructed that it may be raised to 100 feet. The pressure upon the gate at the thirty-five feet dam will be fifteen pounds to the square inch. The original dam site was abandoned for some cause by the present engineer and one selected half a mile up stream. I conversed with most of the workmen upon the flume and found none who thought the present site compared to the former. Several changes that have been made are proving expensive to the company.

The estimate by the present engineer is that the large or irrigating flume will carry 340 feet of water to the head of Big Dry Creek, which is twelve miles from the dam. There is to be seven miles of extra large flume constructed from Big creek to the reservoir, and then Big creek will be in it.

It is expected that the work will be completed to Big Dry creek by November 5th, thus giving water for irrigation next year. There is about four and a half miles of flume completed. The tunnel plan was abandoned and it required three miles of additional flume to reach the outlet of a 2500 foot tunnel.

In this three miles the last quarter of a mile has not been completed, though over two weeks has passed since they entered it. Here is a great granite cliff, hundreds of feet from peak to base. Looking down a chipmunk looks like a mouse. Standing upon the flume and looking into the dizzy depths below one finds his head in the swim. Continued in my next. COLONEL SMUTZ.

A PAINFUL ACCIDENT.

J. B. Appling Had Several Fingers Crushed at Porteus'.

J. B. Appling, who runs the engine for James Porteus of the Fresno Agricultural works, met with a painful and serious accident just before noon yesterday.

Mr. Appling was running a block of wood through a sticker, when the block accidentally caught and turned, suddenly causing his hand to come in contact with the machine. The two middle fingers were crushed and torn, and had to be amputated below the second joints. The little finger was also badly lacerated, but the bone not being injured the finger will be saved without much injury.

Drs. Deardorff and Davidson attended the patient, after which he was taken to his home on the corner of Q and Merced streets, in as comfortable condition as could be under the circumstances.

STABBING AFFRAY.

FRANK ROBERTSON WOUNDS TWO MEN.

Narrowly Escapes Becoming a Homicide—He is Placed Under $1500 Bonds.

About 9 o'clock Sunday evening Frank Robertson had an altercation with another man on H street, between Tulare and Inyo streets, which soon led to blows. The unknown man seemed to be getting the best of Robertson, when the latter drew a knife and slashed at his opponent, inflicting a wound four inches long on the breast.

The wounded man turned to run, Robertson pursuing with knife in hand, evidently intending to do further injury. At this point A. G. Leverone, who was a witness to the affray, interfered by attempting to detain Robertson. Robertson thrust at Leverone with his knife, cutting him over the heart. The wound was long but not deep. Leverone struck Robertson, and then held him while some friends disarmed Robertson.

In answer to a summons Deputy Constable Crutcher arrived on the scene and took Robertson into custody. Leverone and the unknown man went to Dr. Maupin's office, where their wounds were dressed. Leverone swore to a complaint in Justice Prince's court, charging Robertson with an assault with intent to commit murder. Robertson's other victim was taken to his home in the country and his name could not be learned.

Robertson was brought before Justice Prince yesterday morning, informed of his rights, and put under bonds in the sum of $1500. He asserted he did the stabbing in self defense.

Robertson swore to two complaints charging Leverone and the other man with battery. Leverone appeared in court and furnished the $50 bail required of him, but Robertson was less successful and was taken back to jail.

Robertson, his first victim and some other men had been drinking in a saloon near where the fight occurred, and were probably under the influence of liquor. Leverone says the knife with which the cutting was done was the kind used by grape pickers. The cases have not yet been set.

Rheumatism

The That is Question. **BE CURED?**

—We Say Most Emphatically—

YES!

The greatest difficulties that honest and legitimate remedies have to contend with is the charlatan and fakir. He comes with blowing trumpet and gilded co..ch to impose upon the people his worthless nostrums, and when they have been fooled they lose faith in the good as well as the bad.

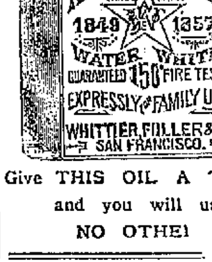

We offer you a sure, safe and reliable cure to all who are suffering from Rheumatism and Neuralgia—PARADISE OIL AND BITTERS. It never fails when applied as it should be. Many of the best citizens of Fresno county can testify to its merits. Try it. If it does not do what we claim we ask no pay.

A CRITICISM

OF THE GROWERS' ASSOCIATION'S ACTIONS

In Permitting a 2-Crown Raisin to be Branded a 3-Crown—Information Wanted.

EDITOR REPUBLICAN.—Pardon a few remarks on the item regarding the meeting of the Raisin Growers' association in your issue of last Sunday.

No doubt it would be "extremely inconvenient" to alter the practice of branding a second grade raisin as 3-crown; yet, when packers agree to a minimum price of $1.65 on 3-crown goods and $1.45 on 2-crown or second class goods, it is very puzzling to know why an association, formed for the purpose of protecting the growers' interests should establish the precedent that it shall be optional with a packer to put up his 2-crown raisins, brand them 3-crown and sell them as 3-crown for a 2-crown price.

As far as the writer is able to comprehend the situation, it simply allows a cut of 20 cents per box, besides lying to the trade, as they all expect a first-class raisin under a 3-crown brand and the committee allows those packers who wish to be dishonest enough to brand a 2-crown raisin 3 crown. The trade, buying as they do in a great majority of cases entirely by the crown on the box, will thus be swindled and the raisin industry of Fresno county is bound to suffer, because they will say, "If that is the best 3-crown raisin Fresno can produce, we would rather have Spanish goods."

Because the dealers have been in the habit of branding goods higher than the quality will admit it seems to be a very poor policy for a committee of growers to uphold such a proceeding. How will the trade be able to tell which is the best 3-crown worth $1.65 and which the second 3-crown worth $1.45?

Any information that the members of the committee who passed the resolution can give will be thankfully received by

Yours truly, W. F. FORSEY,
Fresno, September 26.

UNHAPPY JONES.

He Tells How Meanly His Wife Treated Him.

In the superior court yesterday C. M. Jones filed a suit for divorce against Margaret A. Jones, whom he married in Laclede county, Mo., in the year 1842.

Jones complains that his wife treated him in a cruel and inhuman manner. On July 8th of this year she used the following language toward him: "You leave this house; get away from me and stay away. I will never cook for you again. I am tired of looking at you and hate the ground you walk on."

This was said in the presence of many persons the plaintiff alleges and caused him much mental anguish and humiliation. Ever since that time he has been compelled by his wife to live apart from her, she having carried out her threat of refusing to cook for him.

Jones also relates that near Lemoore in July, 1889, his wife violently assaulted him with a whip, and a few days after left his bed and board and lived separ te from him for more than two years, till April, 1892, when she agreed to again live with him and perform the duties of a wife.

He believed her and took up his residence with her, but within a month she violated her promise and refused to cook for him and compelled him to leave their home. Plaintiff says defendant deceived him intentionally and that it was never her purpose to live with him again. There is no community property.

Fresno was visited by a thunder storm Sunday night. Rain fell near Forsyth's, but not in sufficient quantities to sand the raisins. Only a few drops fell in the city.

Itching piles are known by moisture like perspiration, causing intense itching when warm. This form as well as blind, bleeding or protruding, yield at once to Dr. Bosanko's Pile Remedy, which acts directly on parts effected, absorbs tumors, allays itching and effects a permanent cure. 50 cents. Druggists or mail. Circulars free. Dr. Bosanko, Philadelphia, Pa. Sold by Smith Bros., druggists.

A Great Liver Medicine.

Dr. Gunn's Improved Liver Pills are a sure cure for sick headache, bilious complaints, dyspepsia, indigestion, costiveness, torpid liver, etc. These pills insure perfect digestion, correct the liver and stomach, regulate the bowels, purify and enrich the blood and make the skin clear. They also produce a good appetite and invigorate and strengthen the entire system by their tonic action. They only require ONE PILL FOR A DOSE, and never gripe or sicken. Sold at 25 cents a box by Smith Bros., druggists.

Saved From Death by Onions.

There has no doubt been more lives of children saved from death in croup or whooping cough by the use of onions than by any other known remedy. Our mothers used to make poultices of them, or a syrup, which was always effectual in breaking up a cough or cold. Dr. Gunn's Onion Syrup is made by combining a few simple remedies with it which make it more effective as a medicine and destroys the taste and odor of the onion. 50 cents. Sold by Smith Bros., druggists*

Order of Adjudication of Insolvency.

IN THE SUPERIOR COURT OF THE COUNTY of Fresno, state of California.

In the matter of George W. B. Owen, an insolvent debtor.

George W. B. Owen, having filed in this court his petition, schedule and inventory in insolvency, from which it appears that he is an insolvent debtor, the said George W. B. Owen is hereby declared to be insolvent. It is hereby ordered that J. M. Hensley be, and he is hereby appointed receiver of the property of said insolvent, and that upon his giving a bond to the people of the state of California, conditioned as required by law, and in such sum as the court may order, and qualify, he take charge and possession of all the estate, real and personal, of said George W. B. Owen, insolvent debtor, whatsoever and wheresoever situate, except such as may be by law exempt from execution, and of all deeds, vouchers, books of account and papers, and to keep and care for and dispose of the same until the appointment of an assignee of his estate. All persons having the same or any part thereof (including the sheriff of the said county of Fresno) in his or their possession, are hereby directed to deliver said property to said receiver, and all persons owing money to said insolvent are hereby directed to pay the same to said receiver, and that said receiver keep the said property, or the proceeds thereof, till the further order of this court. And all persons are hereby forbidden to pay any debts to said insolvent, or to deliver any property belonging to such insolvent to him, or to any person, firm, corporation or association for his use, and the said debtor is hereby forbidden to transfer or deliver any property until the further order of this court, except as herein ordered.

It is further ordered, that all the creditors of said debtor be and appear before the Hon. S. A. Holmes, judge of the superior court of the said county of Fresno, in open court at the court room of said court, in the said county of Fresno, on the 29th day of October, 1892, at 9 o'clock a.m. of that day, to prove their debts and choose one or more assignees of the estate of said debtor.

It is further ordered, that this order to published in the FRESNO DAILY REPUBLICAN, a daily newspaper of general circulation, published in the said county of Fresno, as often as the said paper is published before the day set for the meeting of the creditors.

And it is further ordered, that, in the meantime, all proceedings against said insolvent be stayed.

Dated, September 24th, A.D. 1892.
S. A. HOLMES,
Judge of the Superior Court.
